Period Art is a specialist art company specialising in commissioning ancestral portraits, portraits of the nobility, historical figures and fine art oil replicas of famous to lesser-known masterpieces for period properties, historical houses, listed buildings and art lovers.

All of our artwork is custom-made to your requirements allowing you the freedom to choose the exact dimensions of your painting. We can even change tones and colours of a painting so it will complement your style, taste and home.

We are able to age paintings too. Thereby giving a period painting an authentic look and feel.

Period Art, which employs a growing body of talented artists specially trained in numerous specific disciplines, can solve art-acquiring woes and serve as consultants for new commissions.

We're a dedicated and knowledgeable company that lets you describe your properties or ideas for a space, and will produce appropriate suggestions to create the perfect match between a wall, an owner, and a painting.

Period Art is based in London, UK but we deliver worldwide. Many of our paintings can be found in private homes across the UK and Europe, Dubai, United States and Russia.
